RE: Docket # 02-00023 – Petition of On-Site Systems, Inc. to amend its Certificate of Convenience and Necessity - Bolton Landing

Dear Mr. Waddell:

Subsequent to the filing of the above-referenced petition on January 7, 2002, additional developments in that area required On-Site Systems to petition for a larger area, which is to include the Bolton Development property. As a result, we would like to withdraw our petition for Bolton Landing. The property for the Bolton Landing Development is within the Goose Creek Area (Docket # 02-00172) (see attached map) and should be considered as part of that petition. Please give me a call if you have any questions regarding this change.

Sincerely,

Charles Pickney, Jr., President
On-Site Systems, Inc.

Exhibit A
